

Proudly Mexican

We are a diversified and 100% Mexican company and one of the most experienced Latin American firms in the energy, industrial, and real estate sectors. We aim to contribute to building a better future through the sustainable economic development of Mexico while generating value for society, our collaborators, clients, and investors.

Our businesses

Design, construction, transportation, and installation of infrastructure, and interconnection of oil and gas pipelines.

Manufacture of land infrastructure, coating, and ballast of pipelines for the hydrocarbon sector.

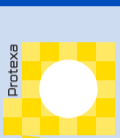

Complementary activities to the onshore and offshore sectors, such as drilling and fluid supplies, inspection and maintenance of oil platforms, food and lodging, boat logistics, port, fiscal enclosure, and maintenance of reactors.

An urban project that has residential, commercial, and service areas within a new comprehensive concept that will provide a more dynamic growth and value added to the Western sector of Monterrey.

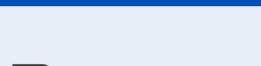

Real Estate development within La Reserva. It has the Club House with the most amenities in the Cumbres area, around 9,800 m² of green areas divided into 5 parks, surveillance, and recreation areas for the family.

First Mexican producer of waterproof coatings in acrylic, asphalt, insulation, and prefabricated rolls formats.

Mexican leader in e-coating technology and powder painting application for auto parts and electronic pieces

Mexico's only manufacturer of fiberglass veil, which is exported to 10 countries of the American continent.

Inspection service stations for vehicle emissions with 6 locations in Mexico City, providing outstanding customer service using ultimately high technology standards.

Our locations

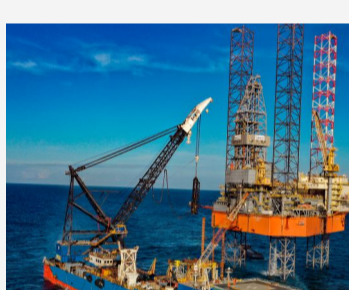

With well over 5,000 collaborators, we work at the best strategic locations in Mexico, the United States and Latin America.

Milestones

+50
on the market

The innovative features and diversification of our products, the quality of our services, and the ability to offer original solutions to the industries we operate have distinguished us all over Mexico and Latin America.

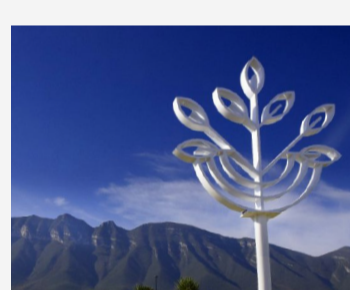

We have been a reliable supplier of Pemex since 1948. We have installed around 75% of offshore structures in Mexico and we have installed over 12,694 km of pipelines and other 4,761 km of pipelines in South America.

We are the first Mexican company to carry out laying of underwater pipelines, installation of platforms in the Gulf of Mexico and offshore drilling operation Jack-up type self-elevating platform.

We are the pioneer producers of high-quality waterproofing systems in Mexico. We have the two largest plants for the application of a specialized coating for the automotive sector and serve as the only manufacturer of fiberglass veil in Latin America.

Our footprint is visible in the real estate sector. We focus on the design and development of residential and commercial projects that continue to be emblematic in Monterrey to this day, Plaza Fiesta San Agustín and IXCO Tower are proof of that. We are also pioneers in the tourism sector as we built one of the first hotels in Cancun: Casa Maya.

+Value

We work under a Compliance and Integrity Management System, which ensures adherence to the best corporate practices, based on ISO-37301, which offers the guidelines to establish regulatory compliance. Our Code of Ethics and Corporate Conduct is a reference to our principles and values.

We believe in the importance of Transparency and we are committed to regularly disclosing relevant information about how we conduct our businesses and other aspects of our sustainability performance.

We integrate our 2030 Sustainability Strategy into our business model. We are part of the United Nations Global Compact to contribute to the 2030 Development Agenda and the Sustainable Development Goals. We seek to have a positive impact in the process of improving people's quality of life and well-being, as well as in the sustainable use of natural resources.

We have built up the national supply chain. We have developed and continue to strengthen hundreds of providers in 9 states of the country. We carry out training programs and implement our methodology and processes for the growth of suppliers, aiming to promote the national industry and products.

Since 2018 we have carried out philanthropic work through donations to organizations serving vulnerable populations and improving communities.

Our areas of focus are education, health, and the improvement of spaces and the environment. Additionally, we have a youth council that seeks to contribute to the comprehensive development of other people their age.

We have a research and development center that is equipped with state-of-the-art and high-precision tools for design and prototyping, focused on finding disruptive and innovative solutions to challenges that arise in our business divisions.
